

# Planet Eclipse Etha Regulator Replacement

This guide focuses on how to carefully remove and replace the Regulator of your Planet Eclipse Etha.

Written By: Jared Olson

## INTRODUCTION

Use this guide if your macroline or regulator broke or you chose to upgrade your regulator. Removing these parts also allows access to more of the marker's internal parts.

## Step 1 — Regulator

- Firmly grasp hold of the ring on the bottom of the 90 degree silver fitting on the front of the gun.
  - Pull hard, but slowly, on the macroline where it comes out of silver piece until it comes out.
- i** The macroline is the black hose connecting the regulator to the tank connection.

## Step 2

- Remove the regulator by unscrewing it in a clockwise direction.

To reassemble your device, follow these instructions in reverse order.
